ILLINOIS.

ing a considerable portion of the City of Cairo, in Alexander County, in the State of Illinois, and lands immediately adju-

This city, as is well known, is situated at the confluence of the Ohio and Mississippi rivers, at the head of uninterupted navigation on the Mississippi, being below obstructions by ice in the winter and low water in summer, and thus has a clear and open river communication at all times over the Mississippi and its tributaries, with all the country south, to the Gulf of Mexico and the Atlantic Ocean. Caire has also the same character of communication with all the country north over the streams flowing by it, when those streams are not innavigable by reason of ice or low water.

Before the era of Rallroads, Cairo had a commanding position as a centre of commerce and navigation. This importance of position she still possesses, but has now the additional advantage of being a great railroad centre, a number of the most important railroads in the Valley of the Mississippi converging to and having their termini there. Among these, coming from the north are the great Illinois Central Railroad, which traverses the entire state of Illinois from its extreme northern and north-eastern to its southern limits, and by its connections extends into all the great northwestern grain producing States; the Cairo and Vincennes, extending from Cairo to the City of Vincennes, in the State of Indiana, where its connections afford direct railroad communications with all Eastern cities; and direct railroad communication with the direct railroad communication with the city of St. Louis and all the railroads cen-tering there. The roads coming from the South are the New Orleans, Jackson and Great Northern and the Mobile and Ohio Railroads, which give direct railroad com-munication with the cities of Mobile and New Orleans, and other Southern Atlantic sea ports, and by connecting roads with all the country south of Cairo; and coming from the southwest is the Cairo, Arkansas and Texas Rattroad, which affords similar communication with Southern Missouri,
Arkansas and Texas, and the principal citics of those States. This last-named road
will give, also, direct councetion with the
Texas and Pacific Road when it is comple-DIRECTORS:

Will give, also, direct counceton with the principal ports of the Pacific Ocean These railroads, terminating at Cairo, are now all completed and in successful operation, those in Illinois coming into the city on a bank of each of the rivers. Ohio and Mississippi, and terminating at their confluence, thus eneircling the city. The Holly Springs, Brownsville and Ohio River Railroad, which will both terminate at Cairo, are in course of construction and will soon be completed, and other railroads both in Illinois and in States south of the Ohio river, which will also terminate at Cairo, are projected, and arrangements made to build them. The construction of these will greatly increase the railroad communication with the principal ports of the Pacific Ocean These railroads, terminating at Cairo, are now all completed and in successful operation, those in Illinois coming into the city on a bank of each of the rivers. Ohio and Mississippi, and terminating at their confluence, thus eneity in the cairo and Tennessee River Railroad, which will both terminate at Cairo, are in course of construction and will soon be completed, and other railroad both in Illinois and in States south of the Ohio river, which will also terminate at Cairo, are projected, and arrangements made to build them. The construction of these will greatly increase the railroad communication with the principal ports of the Pacific Ocean These cairo, are now all completed and in successful operation, the cairo and terminating at their confluence, thus eneity in the cairo and terminating at their confluence, the cairo and terminating at their confluence, the cairo and the

> Its central location in the gree . Valley of the Mississippi, and the great wealth of river and railroad communication, gives to Cairo unsurpassed advantages as a commercial point, as it affords to her easy and cheap acpoint, as it affords to her easy and cheap ac-cess to all the grain producing districts of the North and West, and similar access to all the agricultural produce consumers of the South, thus presenting the best location in the Westfor an interchange of the respect-ive northern and southern commodities and productions.

> As a manufacturing location the position of Cairo is not less important. The crude materials of every description, which constitute the elements of manufactured articles, abound on every side, iron ore, coal, of superior quality, and timber of every character, more than others, being easily and cheaply accessible, and the rich agricultural region of the immediate neighborhood, as well as the more remote districts rendered tributary to it by river and rail, furnish supplies of the recessaries of life in such abundance as to render living exceptionally cheap. When the manufactured articles are produced, the facilities for cheap distribution by river and rail are not equalled. stitute the elements of manufactured

Cairo has a moral, intelligent, liberal and enterprising population of about 12,000—has a superior system of public schools, which, with others conducted by private enterprise, afford unsurpassed educational advantages—is possessed of well-established churches of nearly every denomination—has public and private buildings of a superior character—has a climate, which for satubity and healthful influences cannot be surpassed—has a well-regulated and efficient municipal organization, its streets lighted with gas, and other metropolitan advantages, which make it highly desirable and in reality not to be excelled as a place of permanent residence.

Lots and land in Cairo are now offered at very low prices, affording tavorable oppor-tunities to purchase, and the owners pre-sent the location to the public as offering unrivaled advantages for the successful es-tablishment of commercial or manufactur-ing enterprises, and the best locality in the country for profitable investment of capital.

S. STAATS TAYLOR, EDWIN PARSONS, CAIRO, ILL., May 1st, 1874. 5-19-tf

Ayer's Cathartic Pills,

proved them to be the safest, surest, and best of all the Pitts with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by Ayer's Pitts, and atimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wramper to each bex, how to use them as a Family Physic and for the following complaints, which these Pitts rapidly cure:

For Byspepsia or Endignation. Listlesmess, Languar, and Loss of Appetite, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Ever Compiliant and its various

tone and action.

For Laver Complaint and its various symptoms, Bilious Escadache, Sick Hondoche, Jaundice or Green Sickmess, Bilious Coite and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

remove the obstructions which cause it.

For Bysentery or Diarrhem, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Bide, Back, and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

change those complaints disappear.

For Bropey and Bropeical Swellings, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression, r large dose should be taken, as it produces the desired effect by sympathy.

As a Dinner Pill, take one or two Pills to

As a Dinner Pill, take one or two Pills to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often fluds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

PREPARED BY Dr. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A. POR SALE BY ALL DRUGGISTS EVERYWHERE

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic poisons. called for by the necessities of the American people than a sure and safe cure for

we are now enabled to offer it will eradicate the disease, and with assurance, founded on proof, that no barm can arise from its use in any quantity. That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention

better than cure; for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of Fever and Ague from the system, and prevents the develop-ment of the disease, if taken on the first approach of its premonitory symptoms. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quinine or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Agne is not alone the con-

sequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuraleta, Bheumatism, Gout, Henduche, Blindness, Toothache, Eurache, Catarrh, Asthma. Palpitation, Painful Affection of the Spicen. Hysterics. Pain in the Bowels, Colic. Paralysis, and derang ment of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarines districts. If taken occasion. the malarious districts. If taken occasion ally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will ever suffer from Intermittents if they avail themselves of the protection this rem-

For Liver Complaints, arising from torpid-ity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.
